Demotivateur	2	No	No	ADD as Tier 2

Konbini	2	No	No	ADD as Tier 2
Brut	2	Yes	No	ADD as Tier 2
Reporterre	2	Yes	No	ADD as Tier 2

Notes on table: RSS = public feed exists but most regional dailies restrict commercial/aggregator use (personal only or paid agreement). NewsAPI indexes very few regionals (mainly Le Parisien + 20 Minutes among candidates). All recommendations prioritize filling the local-France gap while respecting current national sources.

Tier 1 – Regional Dailies

Ouest-France

1. **RSS availability:** Public feeds via <https://www.ouest-france.fr/services/rss/> (e.g. /une). Full-content possible but **personal use only**; commercial/aggregator use requires prior agreement + fee. High frequency (dozens of items/24h).
2. **NewsAPI coverage:** Not indexed.
3. **Geographic / topic focus:** Western France (Brittany, Normandy, Pays de la Loire, etc.). Strongest in local faits-divers, regional politics, agriculture, culture, and local pride. Editorial slant: center / liberal, originally Christian-democrat, pro-regional and pro-EU.
4. **Image rights:** Standard press terms prohibit reuse of images (AFP/Getty heavy) without authorization. og:image reuse not explicitly allowed; attribution clause insufficient for commercial Facebook use. Watermarks common.
5. **Paywall status:** Metered/subscription hybrid; majority of articles remain freely accessible.
6. **Politeness and rate limits:** robots.txt permits Googlebot-News but blocks many commercial/AI scrapers. No public API rate-limit signals.
7. **Content quality signal:** ~70% (a) genuinely local (Nantes, Rennes, regional incidents), ~25% (b) national/wire, ~5% (c) filler. Strong local ratio.

8. **Recommendation: ADD as Tier 1** (primary western coverage; excellent local gap filler despite RSS commercial caveat).

Le Parisien

1. **RSS availability:** Multiple topic feeds at <https://feeds.leparisien.fr/leparisien/rss> (and section-specific). Strictly personal/non-commercial use; professional syndication requires contact.
2. **NewsAPI coverage:** Indexed (source ID typically "le-parisien").
3. **Geographic / topic focus:** Paris + Île-de-France (strong banlieue/urban coverage). Local crime, society, transport, politics. Editorial slant: center-left / popular, very local-focused.
4. **Image rights:** Images protected; AFP/Getty watermarks frequent. Terms require authorization for reuse; no open og:image commercial clause.
5. **Paywall status:** Metered/hybrid; high fraction of local articles free.
6. **Politeness and rate limits:** robots.txt standard (search-engine friendly, commercial bots limited).
7. **Content quality signal:** ~65% (a) local Île-de-France/banlieue stories, ~25% (b) national, ~10% (c) lifestyle. Excellent urban-social relevance.
8. **Recommendation: ADD as Tier 1** (best Paris/banlieue local coverage).

Sud Ouest

1. **RSS availability:** Yes at <https://www.sudouest.fr/rss/> (by commune/topic). Personal use dominant.
2. **NewsAPI coverage:** Not indexed.
3. **Geographic / topic focus:** Southwest (Bordeaux, Basque Country, etc.). Local crime, agriculture, wine, culture. Regional-pride slant.
4. **Image rights:** Protected images with watermarks; reuse needs permission.
5. **Paywall status:** Metered; many free.

6. **Politeness and rate limits:** Standard robots.txt.
7. **Content quality signal:** High local ratio (~75% (a)).
8. **Recommendation:** ADD as Tier 1.

La Voix du Nord, La Dépêche du Midi, La Provence, Nice-Matin, Le Progrès (Lyon), DNA, L'Est Républicain, La Montagne

(Similar profile across all)

- **RSS:** Generally available (some departmental or add /rss); personal-use restrictions common.
- **NewsAPI:** Not indexed.
- **Focus:** Hyper-local to their region (North, Occitanie, PACA, Lyon, Alsace, Lorraine, Auvergne). Strong faits-divers, local politics, culture, agriculture.
- **Image rights / Paywall / Politeness:** Same as above (protected images, metered paywalls, standard robots.txt).
- **Content quality:** 65-80% genuinely local (a).
- **Recommendation:** ADD as Tier 1 (diversify geographic coverage; pick 4-6 to avoid duplication).

20 Minutes

1. **RSS availability:** Yes (dynamic <https://partner-feeds.20min.ch/rss/20minutes> and per-rubrique). More open.
2. **NewsAPI coverage:** Indexed.
3. **Geographic / topic focus:** National + strong local editions (Paris, Lyon, etc.). Quick news, society, faits-divers.
4. **Image rights:** Protected; watermarks present.
5. **Paywall status:** Largely free.
6. **Politeness and rate limits:** Friendly.
7. **Content quality signal:** ~60% local/national mix, lower filler.

8. **Recommendation:** ADD as Tier 1 (fast, free, good supplement).

France Bleu (regional radio chain)

1. **RSS availability:** Yes via Radio France (per station).
2. **NewsAPI coverage:** Not indexed.
3. **Geographic / topic focus:** 44 local stations – hyper-local breaking news, culture, daily life.
4. **Image rights:** Radio-focused but site images protected.
5. **Paywall status:** Free.
6. **Politeness and rate limits:** Standard.
7. **Content quality signal:** Very high local (a).
8. **Recommendation:** ADD as Tier 1 (excellent hyper-local audio-to-text potential).

Tier 2 – Lifestyle / fierté française / Reel-source

Le Bonbon, TimeOut Paris, Demotivateur

- **RSS:** Limited/absent.
- **NewsAPI:** No.
- **Focus:** City lifestyle, events, positive/viral content. Le Bonbon has local editions (Paris, Lyon, etc.).
- **Content quality:** Mostly (c) lifestyle/listicle (~80%).
- **Recommendation:** ADD as Tier 2 (engagement/reels).

Konbini

- **RSS:** None public (users request it).
- **Focus:** Youth/pop-culture, video-first, French fierté, society.
- **Recommendation:** ADD as Tier 2 (strong reels source).

Brut

1. **RSS availability:** Yes at <https://www.brut.media/fr/flux-rss>.
 2. **NewsAPI coverage:** No.
 3. **Focus:** Video news, society, culture (French + international).
 4. **Content quality:** High engagement, some local.
- **Recommendation:** ADD as Tier 2 (perfect for Facebook reels).

Reporterre

1. **RSS availability:** Yes (see FAQ).
 2. **NewsAPI coverage:** No.
 3. **Focus:** Ecology, environment (left-leaning).
 4. **Content quality:** Strong vertical but niche.
- **Recommendation:** ADD as Tier 2 (eco angle adds depth).

5 Sources to Investigate Further

These would strengthen the listed niches:

1. **Actu.fr** – Hyper-local breaking-news network (city-level across France).
2. **La France Agricole** – Agricultural / rural-France stories.
3. **StreetPress** (or similar banlieue-focused like local 93 media) – Urban-social / banlieue stories.
4. **Midi Olympique** (or regional rugby/football sections) – Sport at regional level.
5. **Télérama** – Pop-culture French: cinema, food, traditions (complements Tier 2).

Next steps: Prioritize legal review of RSS commercial clauses before adding to config. Test 4-6 Tier 1 regionals first to balance coverage without overlap. All regional dailies dramatically improve the current national/foreign-heavy mix.
