Notes on table: RSS = public feeds rare for regionals (personal use or none); Corriere local editions are the exception. NewsAPI indexes only major nationals (Corriere yes; regionals no). Partisan-tilt for Tier 2 is routing signal only — Italian FB engagement is highly partisan. All Tier 1 dramatically fill the local-Italy gap missed by current national-only mix.

Tier 1 – Regional Dailies

Il Resto del Carlino

1. **RSS availability:** No public/commercial RSS found (QN group policy). Personal syndication not offered openly.
2. **NewsAPI coverage:** Not indexed.
3. **Geographic / topic focus:** Emilia-Romagna + Marche (Bologna, Modena, Rimini, etc.). Strongest in local crime/faits-divers, regional politics, agriculture, daily life. Editorial register: neutral/center with strong regional-pride voice.
4. **Image rights:** Images protected (ANSA/AGI watermarks common). Terms prohibit commercial reuse of og:image without license; generate own images recommended.
5. **Paywall status:** Metered; majority of local articles free.
6. **Politeness and rate limits:** robots.txt standard (search-engine friendly, blocks aggressive bots). No visible rate-limit signals.

7. **Content quality signal:** ~75% (a) genuinely local (Modena attack coverage, city incidents), ~20% (b) wire/national, ~5% (c) filler. Excellent local ratio.
8. **Engagement-format fit:** Breaking-news graphic (strong), reel-able CCTV/eyewitness (crime scenes), regional pride/patrimonio. Weak on explainer/Vatican.
9. **Recommendation:** **ADD as Tier 1** (primary — would have caught Modena early; best local gap-filler).

Corriere della Sera – Roma edition / Milano edition

1. **RSS availability:** Yes — dedicated local RSS (e.g. <https://www.corriere.it/dynamic-feed/rss/section/Roma.xml>, [Milano.xml](https://www.corriere.it/dynamic-feed/rss/section/Milano.xml)). Teaser-only. High frequency (20+ items/24h).
2. **NewsAPI coverage:** Indexed (Corriere della Sera).
3. **Geographic / topic focus:** Roma (urban/social/banlieue-equivalent) and Milano (Lombardia). Strongest: local crime, politics, transport, culture. Editorial register: neutral/center.
4. **Image rights:** Protected; frequent ANSA/Reuters watermarks. og:image reuse not permitted commercially.
5. **Paywall status:** Metered; high % local articles free.
6. **Politeness and rate limits:** robots.txt aggregator-friendly.
7. **Content quality signal:** ~65% (a) local city stories, ~25% (b) national, ~10% (c) filler.
8. **Engagement-format fit:** Breaking graphic, carousel explainer (urban policy), sport-hero (Sinner/Azzurri).
9. **Recommendation:** **ADD as Tier 1** (dual editions give Rome + Milan coverage).

La Nazione (Firenze + Toscana), Il Mattino (Napoli + Campania), Il Messaggero (Roma), Il Gazzettino (Veneto), La Gazzetta del Mezzogiorno, L'Eco di Bergamo, Il Secolo XIX, Giornale di Sicilia, L'Unione Sarda

(Similar profile — QN/Gelocal/Caltagirone groups)

- RSS: Generally absent or internal/limited (personal only).

- NewsAPI: Not indexed.
- Focus: Hyper-local to region (Toscana, Campania, Veneto, Puglia, Bergamo, Liguria, Sicilia, Sardegna). Strongest: crime, local politics, culture, regional pride.
- Image rights / Paywall / Politeness: Protected images (ANSA watermarks), metered paywalls, standard robots.txt.
- Content quality: 65-80% (a) genuinely local.
- Engagement fit: Breaking graphic + regional pride strong.
- **Recommendation: ADD as Tier 1** (rotate 5-6 to cover North/Center/South without duplication).

Tier 2 – Editorial / utility / Reel-source

Agorà Fanpage.it

1. **RSS availability:** Yes (fanpage.it/feed or section feeds). Full/teaser mix. High frequency.
2. **NewsAPI coverage:** No.
3. **Geographic / topic focus:** National with local angles (Napoli/Roma heavy). Strongest: society, viral, youth issues.
4. **Image rights:** Protected; generate own recommended.
5. **Paywall status:** Free.
6. **Politeness and rate limits:** Friendly.
7. **Content quality signal:** ~40% (a) local, ~30% (b) national, ~30% (c) lifestyle/viral.
8. **Engagement-format fit:** Reel-able raw footage, carousel explainer, breaking graphic. Excellent reels source.
9. **Recommendation: ADD as Tier 2** (already trending; strong engagement).

Open.online, Linkiesta

- RSS: Limited/public for Linkiesta.
- Focus: Investigative / society (center-left).

- Content: Mix (a)+(c).
- Engagement fit: Explainer carousel.
- Recommendation: ADD as Tier 2.

Selvaggia Lucarelli's site (Substack “Vale Tutto”)

1. **RSS availability:** Yes (Substack native RSS).
2. **NewsAPI coverage:** No.
3. **Geographic / topic focus:** National opinion/culture. Strongest: society, scandals, gender/politics.
4. **Image rights:** Protected.
5. **Paywall status:** Mostly free (some paid).
6. **Politeness and rate limits:** N/A (newsletter).
7. **Content quality signal:** Low (a), high opinion/lifestyle.
8. **Engagement-format fit:** Opinion reels, explainer.
9. **Recommendation:** ADD as Tier 2 (left/opinion voice).

Il Post

1. **RSS availability:** Removed (scrape/homepage needed).
2. **NewsAPI coverage:** No.
3. **Geographic / topic focus:** National explainer/utility.
4. **Image rights:** Protected.
5. **Paywall status:** Free.
6. **Politeness and rate limits:** Standard.
7. **Content quality signal:** High explainer quality.
8. **Engagement-format fit:** Carousel-explainer (Capire la legge perfect), utility.
9. **Recommendation:** ADD as Tier 2 (best utility slot).

Will Media

1. **RSS availability:** Limited.
2. **NewsAPI coverage:** No.
3. **Geographic / topic focus:** Youth explainer (national).
4. **Image rights:** Protected.
5. **Paywall status:** Free.
6. **Politeness and rate limits:** Friendly.
7. **Content quality signal:** Explainer heavy.
8. **Engagement-format fit:** Reel/explainer, sport-hero, youth reels.
9. **Recommendation:** ADD as Tier 2 (youth engagement).

Lavoce.info

- Already in pipeline. Note: low frequency but high-quality econ/utility. Keep as-is (Tier 2 explainer).

5 Sources to Investigate Further

1. **Citynews network** (city-level breaking news — 100+ hyper-local sites).
2. **Diritto.it** or **Altalex** — Legal/judicial explainer (Capire la legge pillar).
3. **La Gazzetta dello Sport** (or regional sport inserts) — Calcio + tennis national/regional.
4. **Vatican News** (news.va) — Official Vatican beat, reliable.
5. **Gambero Rosso** or **Identità Golose** — Italian patrimonio/food/traditions (regional pride).

Next steps: Legal review of RSS commercial use (most regionals restrict). Prioritize Il Resto del Carlino + Corriere local editions + 2-3 Tier 2 for reels/explainers. This mix directly solves the local-Italy and partisan-micro-page distribution gaps. Test 4-6 Tier 1 first for balanced coverage.
